

What peace with creation is.

Creation is a word but it can also be much more than that. It is of the interwoven harmony in this world. An example is a spider web, when looking at it you might think it is just a structure when it is actually something so interwoven, connected and large that people might appreciate it. Like a forest it is in perfect harmony with the predators controlling the overrunning of the prey and the prey providing food and life to it. Life as a harmony and connection isn't perfect. Nothing is perfect, Finding the meaning of life is at the end of the day what you make of it.

Humans have exploited the world's resources. If we just step back and control ourselves maybe we can find peace and love in ourselves. As you see life is about actions and the actions that people make affect the future. Life is like a Hyundai, it's fast, expensive and takes a lot of work to get used to but once you perfect it and make the most of it you can drive with a smile on your face.

God once said in Genesis "be fruitful and to fill the earth" as long as god said it's the rule that counts as creation like that example to let yourself go. Creation and people can find it anywhere. Look at Sisyphus, a man condemned to roll a boulder up a hill for all eternity. In his suffering people say that he will be happy, but why? Even though he will suffer for all eternity in that time he can find acceptance as his unlimited life which is filled with punishment. Acceptance that we need to be better and to persist leads to hope that creation and beauty can be anywhere. All you need is to find the shining crystal in the darkness. In order to find tranquility you need to always find hope as it is the ultimate driver of completion of purpose in this world as it backs you all the time.

You can find peace and meaning when in pain because you cannot argue with that and you cut your timeframe which is where you cope. Through this you can find beauty and you narrow your time frame to be grateful. As Confucius once said "beauty is everywhere but not everyone can see it". Life can be many things but it is all God's creation and creation makes hope for the future.
